Dear Staff, Parents, and Students:

The school year is officially underway. I am proud to recognize that many of our students are truly focused on increasing their personal and academic performance, which is a powerful way to start another school term.

Mountain View High School (MVHS) has a plethora of goals that are critical this year, in order to continue to bolster pupil performance. Whether staff, parents, or students, it is in the best interest of the school to have maximum participation and commitment this year. The Administrative Team has developed a Core Belief system that I would like to share with you all:

1. Serving as instructional leaders.
2. Ensuring that every professional decision is based on the vision, mission, and goals of the entire school.
3. Encouraging collaboration, and fostering positive relationships between all staff, students, and stakeholders.
4. Modeling the importance of organization, time management, and integrity through our daily efforts.
5. Participating in all staff development and offering critical insights to school-wide learning goals.

MVHS will move forward from a collaborative commitment towards shared excellence. This year, I will constantly communicate with all stakeholders. For example, you can access my monthly written updates, Alert Now messages (every three weeks, depending upon the occasion), and email notifications. It is my intent as the instructional leader to find various ways to demonstrate the school’s progress and solicit ways to effectively collaborate, plan, and execute the school’s goals.

In closing, several announcements will be made during the month of October. Please take the time to read the information that is shared with you all. The Viking Way is the new direction of MVHS, and we can only achieve this by working together to achieve dynamic results for all students.

Yours in Education,

Keith B. Wheeler, MA
Principal
Mountain View High School

“The Viking Way”
